

Swimtech Pools & Spa

Readymade Swimming Pools

The colours of your wellness

Our Profile

SWIMTECH is one of the leading pool and spa makers in India. With a strong base in Goa, Swimtech has also significant presence in the neighboring states of Maharashtra, Karnataka, Gujarat and Andhra Pradesh, where it has successfully executed several water engineering projects.

Swimtech is powered by a team of highly skilled professionals, who are experts in designing and building Readymade and Conventional Swimming pools, Water Parks, Water features (fountains), Spa (Jacuzzi), Steam room, Sauna room and Aqua gym. We are also successfully executing projects related to water-treatment plants for drinking water applications.

The product range of Swimtech Pools & Spa consists of FRP Panels, Liner, & Readymade Pool fixtures (Floor inlet , wall Inlet , Main drain , Vacuum point , Skimmer) & Bobbin-wound sand filters, Multiport valves, Re-circulating swimming pool pumps, Skimmers and Concrete fixtures (Floor inlet, wall inlet, vacuum point), Spa nozzle jets, Pneumatic switch, Under water halogen and LED lights along with transformers, Ornamental features, Heat pump and online heaters, Chemical dosing pump and Ozone equipment and UV. We also have a dealership of Piccolo Mosaic Limited (Italia glass mosaic).

For Readymade swimming pool liner, we are associated with a global Company Called Polyglass Mapei Group - Italy, we are authorised distributor for all over India, and for Conventional swimming pool and water feature related products, we are tied up with best-in-class global companies from Germany (Midas), United Kingdom (Certkin), Spain (Astral), and Australia (Emaux), who are the leading manufacturers of swimming pool equipment in Europe and who are supplying their equipment to many other pool construction companies in Europe as well as the Indian market.

Swimtech is headed by its founder, who started work at the age of 15, in the year 1995. Fueled by his passion, in the past 22 years, the company has grown dramatically and we have completed more than 400 projects in the above-mentioned states.

We at Swimtech assure you of the best quality products and services, around the clock.

GROUP

Lipari

Lipari is a sensorial experience: an explosion of total liberty, a place to explore in the company of someone special. The view around the island is breathtaking. The low sucking of the tide can be heard at the water's edge along with the volcano's enormous silence. Water, a fundamental element of pleasure, just like your pool.

Capri

You're in the right place, but will you be able to capture the idyllic essence of the Isle of Capri?

It might be easier with a friend. Leisurely strolls along the water's edge, boat rides to the Grotta Azzurra. Have a nice long swim, and capture the sun's last rays as it sinks slowly into the sea. Return to this abundance of water lit up at night: a pool of joy.

Egadi

A transparent sea, a submarine world of grottos, walls and rocky seabeds where gorgonias, sponges and corals live together with violet lobsters and great shoals of blue fish. These seas are the untouched source of poems and legendary tales. The mythical "Aegades" of Homer.

Sahara

The landscape is in continuous evolution, and nothing is what it appears to be: a mirage wavers in the scorching air. Reach a tiny oasis hidden beneath the palms and discover the transparent miracle of water in a swimming pool, a glass of mint tea, the mystery of a new beginning. Listen to the sound of clear water flowing at your pool's edge.

Salina

A romantic refuge, the ideal place to relax, between the sea and the sky. Stay out late, carefree, beneath the stars. Appreciate the silence of the island whose name holds the sea's salt and sand, the fragrance of Scotch broom. princes, "The Leopard", at the edge of your pool.

Ischia

This landscape, which I have already longed for, is like dissolved in water. And it's the loneliness that promises everything that leaves us free. When I try to imagine a pure love, or the life to come, what I hear is the sound of underground streams, what I see is a limestone landscape, that lingers against rock under the sun, that fascinates us with its abysses.

Pompei

The gaze reflects in ancient mosaic, lost in shadow. Bits of me, bits of you, pieces of memory, unique fragments pieced together. Light glitters on each and every one. The colours of emotion unleashed in to the air.

Advantages

Advantages

ABSOLUTE COLOUR

Choose the shade of colour you want to give the water in your pool. Thanks to Mapepool technology, your colour will stay perfect and unchanged over the years.

Mapepool technology can give you a pool in any shape you desire, from classic rectangular form to the most unusual

YOUR OWN POOL IN A WEEK

Your membrane installation will require just a few days.

EUROPEAN STANDARD EN 71-3

No migration of heavy metals.

Mapepool complies with European Standard EN 71-3 (safety of toys / migration of certain elements).

UV RESISTANT

Mapepool membranes resist UV radiation and have passed severe control testing.

MICRO-ORGANISM RESISTANT

No growth of micro-organisms.

Mapepool membranes guarantee the most absolute resistance to the formation of micro-organisms (fungus, bacteria and spores). Mapepool membranes are suitable for public and private swimming pools.

WATER TREATMENT

Swimming pool water requires treatment with the right products (always respect the instructions for use and dosage recommended by the suppliers of the respective products).

WARRANTY

Mapepool is a brand of Polyglass S.p.A., a Mapei Group member. Mapepool swimming pool quality is guaranteed for 10 years.

Product	Waterproofing membrane in PVC-P, reinforced with polyester net	
Colours	Lipari, Capri, Egadi, Sahara, Salina, Ischia e Pompei	
European standard	EN 13967 type T	
CHARACTERISTICS STANDARDS - M.U.		
		MAPEPOOL
Visible defects		None
Length		25 (-0/+5%)
Width		2,00/1,65 (±5 mm)
Straightness		≤ 50 mm
Effective thickness		1,5 (±10%)
TECHNICAL CHARACTERISTICS		
		MAPEPOOL
Water tightness		≤ 400
Joint shear resistance		≤ 1100
Tensile strength ANNEX A (N/50 mm)		≤ 1100
Elongation ANNEX A (%)		≤ 18
Tear resistance ANNEX B (N)		≤ 450
Resistance to impact EN 12691 A (mm)		≤ 300
Resistance to static load EN 12730-B (kg)		≤ 20
Durability against ageing EN 1296		Tight at 60 kPa
Durability against chemicals (sat. basic sol.) EN 1847		Tight at 60 kPa
Reaction to fire EN 13501-1		Class E
TECHNICAL CHARACTERISTICS		
		ANTISLIP
Length EN 1848-2 (m)		10 (-0/+5%)
Width EN 1848-2 (m)		1,65 (±10 mm)
Effective thickness EN 1849-2 (mm) (mechanical determ.)		2,0 (±10%)
Embossing		Almond
Resistance to deformation under load EN 13967 ANNEX B		NPD
